

Win Bigger With The Jackpot Cascade

Pro tip:

It's 10 times easier to win the Jackpot 2 Prize compared to Jackpot 1 Prize! Plus, the Jackpot 2 Prize could easily **exceed RM10 million** – thanks to our unique cascading innovation.

!!! Keep an eye out for these 3 things at a draw:

1. The Jackpot 1 Prize grows greater than or equal to RM30 million.
2. There is still no Category 1 full or partial share winner.
3. There is at least 1 full or partial share winner in Category 2.

When this happens, the cascade is triggered:

- Take the Jackpot 1 Prize amount, and minus RM20 million.
- Add that amount (of at least RM10 million) to the Jackpot 2 Prize.

And that's how all Jackpot 2 winners get a chance to win a Prize exceeding RM10 million!
